Dear Wayne

It is with pleasure that I write to comment on the house you built for us in Hobart which was a prize home.

To date our company has conducted over 30 house and land giveaways throughout Australia and New Zealand.

As the homes are a prize, they are more scrutinised than any normal home and as such we take great care in selecting the builder.

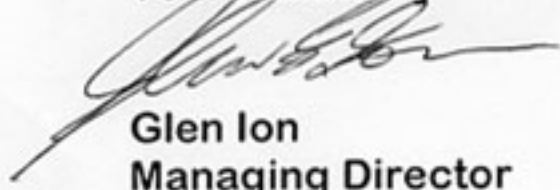

In fact, in Hobart over 5,000 people inspected the house you built without a single criticism.

Our experience with you was the easiest, least stressful and most professional we have ever encountered, and your attention to detail was superb.

I have no hesitation in recommending you to anyone wishing to share a similar experience.

Best of luck for the future.

Yours faithfully

Glen Ion
Managing Director
