**Rococo Homes**  
**Att: Mr. Wayne Dobson**

Dear Wayne,

We have just moved into our new apartment with great enthusiasm and excitement.

I have built many types of buildings, but when it comes to a personal home it is always a more intense and sensitive experience.

This apartment is one of my favorite spaces that I have lived in for many reasons. One of which is the personal input you put into the construction process on a daily basis, over the past two years.

Jane and I would like to acknowledge how you made such a potentially stressful period, comforting in many ways and humorous. Your smiling face and patience were vital to our sanity.

I realize that as a combined client and architect I was at times disorganized and indecisive. However, I believe that architecture and building to be organic, that I always learn from the materials, tradesmen and combinations of the construction team. You should be commended on making that process for the architect/client, steady and reliable, and for making a positive and fair environment for all tradesmen.

It was a pleasure to have worked with you and I wish you every success with your future endeavors.

Yours sincerely,

Nonda Katsalidis
