

I had some renovations and an extension done on my home. After "shopping around" Wayne Dobson was the builder I finally decided to use. I was absolutely thrilled with the completed work to the kitchen and bathroom.

The extension making my two level home into three levels looked as if it had been part of the house since the first brick was laid.

Wayne Dobson I believe is a real perfectionist, he advised, designed and supervised all the work done and is an excellent tradesman.

I would recommend his work to anyone who wanted a first class job.
